PLANO, Texas, June 4, 2009 -- Perot Systems Corporation (NYSE: PER) (<http://www.perotsystems.com/>) today announced it has been awarded a 7-year IT services contract by super regional property-casualty insurance carrier The Main Street America Group. The agreement calls for Perot Systems to administer Main Street America's infrastructure services through IT Infrastructure Library (ITIL)-based best practices and systems, which provides clients a single point of contact for resolving technical issues and application support while assisting with business requests. Additionally, Main Street America's infrastructure services will be managed within Perot Systems' data centers which will increase its flexibility, improve economies of scale, and reduce its operating costs. Financial terms of the agreement were not disclosed.

"As Main Street America's trusted IT services provider, we look forward to helping them continue to deliver high-quality services to their customers in the years ahead," said Peter Altabef, Perot Systems president and CEO. "We are committed to helping Main Street America build and grow on its outstanding record of success in the property and casualty insurance market."

Jacksonville, Fla.-based Main Street America provides commercial, personal and surety products exclusively through independent insurance agents to individuals, families and small businesses in 24 states.

"We have partnered with Perot Systems to enhance the quality and performance of our infrastructure services so that we can serve our customers better," stated Ron James, CIO and vice president of information technology at Main Street America. "Perot Systems has a solid reputation, extensive quality resources and is a recognized leader."

Perot Systems provides end-to-end business process, consulting, application and infrastructure solutions to the life insurance and annuity industries. The company currently manages over 3,000,000 policies for more than 30 leading life insurance and annuity providers across the world.
